

## Food businesses use assured UK meat

Catering and food service is a new and developing area for the Red Tractor scheme. Food Service distributor Brakes secured the support of three leading organisations including John Lewis, ISS Mediclean and The Orchid Group.

John Lewis became the first high street department store to promote Red Tractor food in its public restaurants and ISS Mediclean became the first public sector caterer to use Red Tractor logo on their menus in hospital restaurants. The Orchid Group now has 35 pubs entitled to display the Red Tractor wall plaque. All of these organisations have made new commitments to the sourcing of assured British beef, lamb, pork, chicken and turkey.

Julia Mooney - Head of Marketing, Assured Food Standards, Jacque Bloomfield - Purchasing, Provenance & Food Safety Manager, John Lewis, Marco Zacharia - Strategic Development Manager Catering, John Lewis.
