

Appendix FW.6

Feed Warranty Declaration

This Appendix provides a draft 'Warranty' letter to provide information from the seller about the safety, quality and traceability of feeds supplied from non-assured sources or supply chains.

This draft warranty letter is only permitted for –

- Supply of forages or forage replacers (eg silage, hay, roots, root by-products, forage crops in situ)
- Farm to farm supplies of home-grown cereals or pulses.
- Farm to farm supplies of blends, compounds or other feed materials that are surplus to own requirements.*

*** The validity of the warranty letter does not extend to cover compounds, blends, or feed materials purchased with the primary intent of re-sale directly or after blending. Farmers operating as such must register as a merchant or compounder and comply with the appropriate UFAS requirements.**

Following completion, the letter must then be signed, dated and returned to the farmer by the feed supplier. The address of the feed supplier must be clearly stated. The letter can be valid for deliveries of the same material for a period of up to 12 months from the date of signature.

1. In the case of farm to farm supplies of home grown cereals or pulses a grain passport must also be supplied with the warranty letter. A specimen passport is included in the final page of this Appendix.
2. (An assured producer of cereals / pulses must provide a grain passport although a warranty letter is not needed).
